COMMENT	
Comment:	I am here listening to July meeting. I appreciate that the agenda includes focus on how our city can be inclusive. I would love to see our city be an example of being open to do bias work, and ensure all feel safe. I also would like to know if this commission is the right place to talk about how we can do city wide education about signs of human trafficking, especially with children. there is education that can be done for people to see the signs.
